

How to use the HCPC registration logo

As an HCPC-registered professional you can display the HCPC registration logo as a clear sign that you meet our standards. It provides reassurance and differentiates you from non-regulated health and care professionals. The logo is designed to be simple, bold and easily recognisable.

You can use the HCPC registration logo on your stationery, marketing materials, appointment cards, website, signage and vehicle livery – relating only to your individual HCPC registration. It does not cover practices or premises and it is not to be used when an individual's registration is no longer current, for whatever reason, or by those not registered with the HCPC. Note that standard 14 of the HCPC's standards of conduct performance and ethics states that you must make sure that any advertising you do is accurate.

Colours

The logo can be used in three colourways: in blue (Pantone 294) on white, in black on white (only where colour is not available), or in white and reversed out on a dark background. Never position the logo on top of, or reversed out of, an image. The logo must never be recreated in any way and must be reproduced using only approved digital files supplied by the HCPC.

Exclusion zone

The HCPC registration logo has an exclusion zone – an area which should be kept clear around the logo. The exclusion zone is equivalent to the height 'x' as illustrated below.

Exclusion zone

Minimum size and positioning

The logo should not be used below the minimum size of 20mm wide. The logo must never be squashed, stretched or manipulated in any way and you should avoid using it vertically.
